GOAL (6 MONTHS)

iLamai Med Spa is not just a medical spa — it is a **luxury wellness experience** led by a board-certified physician with a reputation built on trust, precision, and results. Your social media must reflect that reality at every scroll. Right now, your online presence does not match the caliber of what you deliver in person. We fix that.

HOW ILAMAI WILL BE POSITIONED

The High-End Med Spa Led by
a
Physician You Can Trust

Dr. Uma Rangarajan is a medically trained aesthetic specialist whose name is synonymous with safety, artistry, and results. iLamai is where discerning clients come when they want more than beauty — they want transformation backed by science.

“Luxury is not just what you offer — it’s how you make people feel before they ever walk through the door. That feeling begins on social media.”

— STRATEGY PHILOSOPHY

Brand Voice Pillars

- 1 **Authoritative & Educated**
Dr. Uma speaks as an expert, not a salesperson. Every post educates and builds credibility before it sells. Clients follow experts they trust — then they book.
- 2 **Warm & Approachable**
Luxury doesn’t mean cold or distant. Dr. Uma’s genuine personality and warmth are a competitive advantage. We showcase the human behind the clinic.
- 3 **Aspirational & Results-Driven**
Every piece of content answers: “What transformation does this offer me?” We lead with outcomes — confidence restored, youth reclaimed, skin renewed.
- 4 **Consistent & Premium**
Color palette, typography, photography style, and caption tone lock together across every platform to signal a brand that takes itself seriously.

Target Audience

PRIMARY — AESTHETIC INVESTORS

Women 32–55, household income \$80K+, interested in skincare, wellness, and self-improvement. They research thoroughly before booking and choose providers based on perceived expertise and visual proof. They are on Instagram, YouTube, and Facebook Groups.

SECONDARY — REFERRAL ACTIVATORS

Existing loyal patients who love Dr. Uma but have never been prompted to share. They represent untapped word-of-mouth. A small nudge — a reel, a share request, a referral incentive — turns them into your most powerful marketing channel.

Content without a system is noise. Our strategy organizes every post, reel, and story into four core pillars that work together to educate, inspire, prove results, and convert followers into paying clients.

The 4 Content Pillars

01

EDUCATE & BUILD TRUST

Treatment explainers, myth-busting, “Ask Dr. Uma” series, procedure walkthroughs. Positions Dr. Uma as the go-to expert.

02

SHOWCASE RESULTS

Before & after content, client testimonials, transformation reels. Visual proof is the #1 driver of new bookings in aesthetics.

03

BEHIND THE SCENES

Day-in-the-life, clinic tours, Dr. Uma’s personality moments, team spotlights. Builds emotional connection and trust before the first call.

04

CONVERT & PROMOTE

Special offers, seasonal campaigns, direct booking CTAs, limited availability posts. Turns followers into bookings without feeling pushy.

Sample Content Concepts

INSTAGRAM REEL

“3 Signs You’re Ready for Botox (According to a Doctor)”

Dr. Uma speaks directly to camera, breaking down the 3 signs — no filters, no script — ending with a swipe-up to book a consultation.

#Education #TrustBuilder

FACEBOOK + INSTAGRAM

Before & After: “Sarah’s 90-Day Skin Journey”

Client story-driven carousel with 6 slides: diagnosis, treatment plan, progress photos, and final reveal — with Dr. Uma’s commentary.

#Results #SocialProof

YOUTUBE SHORT + IG STORY

“What Happens in a Filler Consultation?”

60-second behind-the-scenes of an actual consultation (with consent). Removes fear & mystery — the #1 barrier to booking.
